

COLORFRESH™

Premium Quality Bedding
For All Small Pets

ColorFresh is recognized as the premier small animal bedding. Our mixed color rainbow product makes for a fantastic visual effect in the cage while still providing you with these unsurpassed properties in bedding;

Superior Odor Control

Simple, Easy, Dust-Free Clean-Up

Scatter Resistant Pellets

Safe & ColorFast

ColorFresh is specially manufactured using FlexTran's Absorba-Fresh Technology. This advanced technology enables ColorFresh to be absorbent with odor control properties superior to other bedding products.

Absorba-Fresh Technology produces a dust-free and absorbent pelleted bedding made from recycled cardboard. During the production process, ColorFresh is thoroughly cleaned and dried at high temperatures to reduce bacteria, mold and fungus. This ensures a safe bedding and healthy cage environment for all small pets. Available in 8.5 pint and 17 pint bags.

ColorFresh may be purchased at your local pet store. If they do not have ColorFresh, ask them to stock it for you. Should you need assistance in locating a dealer or distributor near you, feel free to contact us at customerservice@flextraninc.com.

SciZyme - Control Ammonia & Odor the Natural Way

SciZyme is a safe and highly concentrated enzyme capable of reducing a wide range of organic odors associated with animal waste. SciZyme's bio-enzyme microbes, when wet, consume the organic waste by speeding up nature's own process with the enzymes that create odorless waste. SciZyme will make a healthier and more pleasant environment for you and your animals. Available in ready to use quart bottle or concentrated form. Safe for both people and animals.
