SciZyme will make a Healthier and more Pleasant Environment for You and Your Animals:

SciZyme is a safe and highly concentrated enzyme capable of reducing a wide range of organic odors associated with animal waste. SciZyme's bio-enzyme microbes, when wet, consume the organic waste by speeding up nature's own process with the enzymes that create odorless waste.

SciZyme is easy to use in a ready to use or concentrated form.

SciZyme is safe for both people and animals, including small pets.

General directions for stalls, cages, holding pens, trucks and trailers, arenas: Spray liberally on and around the odorous area; concentrate on soiled area caused by urine or manure.

Horse Stalls: Remove urine saturated bedding daily. Spray SciZyme on and under the surrounding bedding to prevent ammonia build-up.

Kennels & Cages: Spray daily after normal cleaning using a pump-up sprayer.

Cool Rooms for Show Cattle: Control ammonia by spraying 8 ounces of concentrated SciZyme mixed with one gallon of water daily onto the bedding.

Works well on all types of bedding including ShowBed, Shaving, & Straw.

Testimonials:

SciZyme is amazing stuff. We recommend it for all the cool rooms we build and maintain to control ammonia.

-Clendon Gilbert, Cool Calf, Inc.

What a difference SciZyme makes in our dog kennels! No more odor!

-Kirk & Marsha, Pamperien, Missouri

We had fought ammonia in our cool room for years. Thanks to SciZyme we now have it under control.

-David Ridling, 4R Ranch, North Carolina

We were very impressed with how SciZyme controlled odors in the arena and below the rabbit and chicken pens.

-Jim Beale, Rio Grand Valley Livestock Show, TX

Effective Temperature Range.....	45-140F
Shelf Life.....	18 - 24 Months

Safe for People & Animals

USDA APPROVED

ShowBed Soft is the Healthier Choice In Bedding For You and Your Animals:

ShowBed Soft will reduce dust in your stalls and will assist with horses or livestock that have allergies to shavings or dusty straw. No need to spray water on your bedding to control the dust.

ShowBed Soft is made with **Absorba-Fresh Technology**, a patent pending technology that allows it to absorb from the bottom up. This is guaranteed to keep your animals dryer. You'll be impressed. Compare it to any other bedding on the market. ShowBed Soft will keep your animals dryer and more comfortable.

ShowBed Soft is very economical. Load a typical horse stall with 8-10 bags to start and replenish with 1-2 bags per week. Yes, only 1-2 bags per week! Besides a healthier product you may also save money. Works on mats, dirt, clay, stone, or any surface.

We even recommend ShowBed Soft be used by veterinarians and clinics where dust control and cleanliness is required. During our production process, ShowBed Soft is thoroughly cleaned and dried at high temperatures to kill bacteria, mold and fungus. Dust control during medical treatment is very important. ShowBed Soft used after treatment will assist recovery and will provide a long term health plan for your animal.

ShowBed Soft is a better and softer version of the original ShowBed that has been featured at major state fairs in the arenas and livestock bedding areas. A few satisfied fairs include: South Carolina State Fair, Virginia State Fair, Rio Grand Valley Livestock Show, North Dakota State Fair, Volusia County, FL Fair, York County, PA Fair. Works great in indoor or outdoor arenas with dirt or concrete floors.

If you are looking for a great new idea to make your fair or show displays look and feel nicer, ShowBed Soft is the perfect solution. ShowBed Soft colors will enhance your animals for sales, competition or other recreational events. Available in **colorfast** green, burgundy and purple. The color will not bleed onto the animals.

Manufactured from recycled cardboard, ShowBed Soft is safe and environmentally friendly. Compost or spread on pastures. Use regular 3/4" stall fork for daily cleaning. Spray SciZyme daily after cleaning.

Available in 40 pound bags at a feed store near you.

Testimonial:

Your product greatly enhanced the appearance of the show rings and the areas that were used for bedding. The reduction of odor in our Young MacDonald's Petting Barn was terrific. ShowBed did not cling to the wool of the sheep and they looked so much better for the entire eleven days. The presentation alone is terrific. It makes the animals look good and it is less dusty and is cleaner.

The product makes removing waste quick and easy from show rings as well as when it is used for bedding. One has far less material to dispose of on a daily basis.

-Lorene Blackwood, of The Virginia State Fair
